DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on August 27, 2003 has been entered. Claims 14-16 and 18 have been amended. Claims 1-13, 17 and 19 have been cancelled. No claims have been added. Claims 14-16 and 18 are still pending in this application, with claims 14 and 18 being independent.
2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on August 27, 2003 have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 14-16 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. The following is a statement of reasons for the indication of allowable subject matter:

Applicant teaches chemiluminescent element container formed by two pouches, one contained inside the other. The inner pouch containing and oxalate solution and the outer pouch an activator solution. The inner pouch includes a metal foil, preferably aluminum, such that when the inner pouch is burst and the oxalate solution mixes with the activator solution, the metal foil serves as a reflector for the produced light. The

activator solution is absorbed in a non-woven material, whereby the light takes the form of such non-woven material. A hard particle is contained inside the inner pouch for piercing the metal foil.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the activator solution being absorbed in a non-woven material or a hard particle contained in the inner pouch for piercing the metal foil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
